

HEADACHE?

Why suffer when relief is prompt and harmless?

Millions of people have learned to depend on Aspirin tablets to relieve a sudden headache. They know it eases the pain so quickly, and that it is so harmless. Genuine Aspirin tablets never harm the heart. Read directions in package for headache, neuralgia, summer colds, pain of all kinds.

ASPIRIN
TRADE MARK REG.
(Made in Canada)

WORLD HAPPENINGS BRIEFLY TOLD

An inter-provincial conference will be held at Ottawa this autumn to discuss federal and provincial taxation boundaries.

The harbour enquiry to be conducted by Sir Alexander Gibb will include the port of New Westminster as well as that of Vancouver.

No trade agreement with Cuba has been made by the Dominion Government, although Cuba is considering proposals made by Canada.

Dr. Harriet Cilsby, who celebrated her 100th birthday last August and was said to be the oldest woman physician in the world, is dead at her home in West Kensington, England.

A world-wide conference on pool experience and the seeking of remedies was suggested at Leeds, England, by Rt. Hon. J. H. Thomas, Dominions secretary.

The government of France is to have its own legation building in Canada, according to announcement by Hon. C. A. Henry, French minister to Ottawa.

Close to 10,000 Toronto people who have tickets on the Irish Free State Hospital sweepstakes haven't a chance for a prize. Their tickets have been seized in the mails.

Indian farmers throughout the prairie provinces have sown a larger acreage of wheat this year than in the spring of 1930, according to observations of W. M. Graham, commissioner for Indian Affairs.

Rt. Hon. C. R. Atlee, postmaster-general, informed a questioner in the British House of Commons that the government was not prepared to re-introduce penny postage at an early date.

For the first time in Spanish history women will be eligible to membership in the next election. The government has announced that all citizens, irrespective of sex or profession, may be candidates.

Yale Fellowships

Western Canada Students Have Received Awards

The award of 176 fellowships and scholarships, including Canadian awards, and having a value of more than \$130,000, representing the income from gifts of over \$2,000,000, were announced by the graduate school of Yale University recently. The awards cover the study period of 1930-1931.

William F. Hanna, of Winnipeg, B.A., Dalhousie University, 1914, B.S.C., University of Alberta, 1923, Ph.D., University of Manitoba, 1928, will study the genetic relationship of Tilletia Levis and T. Tritici, the fungi causing "bunt" of wheat.

Edith M. Mason, of Victoria, B.C., B.A., King's College, 1918, M.A., Dalhousie University, 1925, wishes to study the life and works of Collin D'Narville.

Samuel F. Morse, inventor of the telegraph, was an artist and painted noted men of his time.

An electrical device has been perfected to keep railway switches and frogs free from snow and ice.

"Why did you steal the gold watch?"
"Well, sir, it was my birthday." — Moustique, Charleroi.

The Cost Of Sickness

Unnecessary Loss Of Life Each Year From Diseases That Could Be Prevented

(By John Burke Ingram.)

One Canadian out of every three dies ahead of his time, statistics show. One death out of every three deaths that bring sorrow to Canadian communities, large and small, could be postponed. We Canadians are letting our friends and relatives die because we do not know how many diseases there are which could be prevented or because knowing, we will not take the trouble, the simple trouble to prevent them. Why are these diseases not prevented?

That is the question which every thinking Canadian should want answered! For centuries disease was inevitable because mankind had not learned how to prevent it. Doctors existed to heal the sick, but it was nobody's business to attempt to prevent sickness from occurring because in those days it could not be done.

Then an English scientist named Edward Jenner, discovered vaccination against smallpox. Doctors began to vaccinate people—which meant that doctors began to treat "Healthy" people, in order to keep them from becoming ill by contracting smallpox. As a result this disease, at one time the greatest scourge of the race, has been beaten down till today it occupies a negligible place among the killers of civilized men.

The success of vaccination made medical scientists think along new lines. If a substance had been discovered which would prevent smallpox, why could not other substances be evolved to prevent other diseases? The idea was sound. Today there is a substance which prevents diphtheria, another to prevent typhoid fever, another against scarlet fever, another to prevent lockjaw, another which used in infantile paralysis prevents crippling.

But though science is in a condition to prevent diseases by these and other means, we are not taking advantage of the protection which is offered to us. For centuries we regarded disease as a kind of god, and because it is hard to change the thinking habits of a people in one single generation we will, even most of our leaders, retain this medieval attitude.

And therefore today, Canada's life-blood is flowing from wounds inflicted upon her by her enemies—disease germs. Not merely in dollars and cents alone—disease milks us annually—but also in our man-power. Canada needs population. Canada is constantly bringing foreign and other immigrants to our shore, yet she permits her own sons and daughters to die of diseases which could be, and should be, and some day shall be prevented! Diphtheria and typhoid fever, both preventable, take respectively 1,200 and 1,111 lives annually, yet both diseases are preventable! The death rate from tuberculosis has been cut in two in the past 25 years, and could be even with our present incomplete knowledge halved and halved again. Cancer kills almost 8,000 Canadians every year, and despite the fact that we don't know what causes cancer, this death rate could be cut in half if adult Canadians would cultivate the habit of having themselves periodically and thoroughly examined by a competent physician every birthday. And so all through the pitiful list of diseases which now rob us of our best and fairest—heart disease, maternal mortality, infant mortality, venereal diseases, all can be cut down if men and women will realize that they get just exactly the kind of health service that they want and are willing to pay for, and that by backing their public health official, they may, in some measure, be held responsible for the health of a nation that is too indifferent to help itself.

Divorce By Legislation

The ninth application for divorce in the last 50 years was recently before the legislative council of the Isle of Man. As the island has no divorce law, a special bill must be passed for each case. After the council has passed the bill, it must be passed by the House of Keys, sent to London for royal assent and finally promulgated from the open-air Tynwald Court.

Exhibition For Charity

England's fancy mice exhibition, at St. Albans, England, had more than 70 various kinds of plain and fancy mice shown by women fanciers. Mostly experimental, there are few limits to the combinations and cross breeds obtainable. Among the freak results are white mice with black eyes; silver and tan mice; black and tan mice, and one instance, extremely rare, a blue mouse. Proceeds from the exhibition are for charity.

By a new decree all tooth pastes must be analyzed, approved and registered by the government before they can be sold in Argentina.

HAWKS MAKES EUROPEAN RECORDS

Capt. Frank Hawks is captivating the hearts of the European aviation enthusiasts with his remarkable speed demonstrations in his flights from London to Paris, to Rome, and also Brussels. He is seen here examining the charts before his first London to Rome flight, in which he established a new mark. He is shown at the Heston aerodrome, England, in his special Travelair plane.

Canada Succeeds In Making Acoustic Board

ASTOUNDING RESULTS OBTAINED FROM USE OF WASTE WOOD PRODUCTS

Good news for the pulp and paper industry of the province of Quebec and especially for noise-frantic citizens in the home, office and public buildings, came from Physics laboratories at McGill University, where it was announced that success had been attained after months of laborious testing in the production of an astounding effective acoustic board from waste wood products.

This is believed to be the first time that an all-Canadian fibre board has been produced in the Dominion. Hitherto, acoustic fibre board had been imported into Canada from the United States, where it was made from sugar cane fibre. The Canadian product will be considerably cheaper.

Every home can now have sound-proof rooms, said Prof. H. E. Reilly. Apartments constructed or renovated with the new acoustic board will be so noiseless that a riveter working next door would be unheard.

Canada and Newsprint Production

MORE NEWSPRINT MADE IN CANADA THAN ANY OTHER COUNTRY

More newsprint paper is made in Canada than in any other country. In 1930, Canada manufactured 2,504,000 tons, 38 per cent. of the world production of newsprint paper. The tonnage was practically double that turned out in the United States, which was the nearest competitor to the Canadian mills with an output of 18 per cent. of the world total. Great Britain and Germany each manufactured about nine per cent. and Newfoundland and Japan four per cent. each. These six countries accounted for about four-fifths of the world supply of newsprint which totalled 6,975,000 tons last year.

Though Canada's production totalled 38 per cent. of the aggregate for the upwards of 20 countries producing newsprint, her proportion of the export market was even larger.

Difference In Force Of Gravity
A body weighing one pound at the earth's surface would weigh 27 pounds at the surface of the sun.

Predicts Stormy Summer

"Chataworth Sage" Bases Conclusions On Purely Scientific Principles

Claiming to have forecast the weather for the past 14 months, including the extreme dry spell now prevailing on this continent, with almost perfect accuracy, J. B. Bowes, of Owen Sound, Ont., widely-known as the "Chataworth Sage," has announced his prognostications for 1931. He has relinquished the copyrights on his forecasts for the benefit of his many followers all over the Dominion.

Mr. Bowes claims that his conclusions are based on purely scientific principles. His expenses are paid by himself. A check-up of his forecast for the last 14 months reveals that he prophesied the present dry conditions throughout North America.

His forecast for the next eight months is as follows:

June—Very calm, cool and very dry for three weeks, last week strong winds and rains.

July—About ten days real warm. About 13th to 25th, very strong persistent and cool winds, very heavy rains that will cause floods in many places, and in northern localities frost. This storm of wind, like the one in January, will cause tremendous seas that will be very destructive to life and property.

August—First half very decidedly warm, sultry, with many thunderstorms. Latter half very calm, warm and dry.

September—About the 6th very strong winds, very heavy rains and frosts. Last two-thirds of month very warm, calm and dry.

October—About first ten days mild and dry, about the 11th wind and frost, then mild; about the 18th strong, cold winds, rains, snow and frost; balance mild and calm.

November—Calm and cool and probably dry.

December—Very calm and very dry to about the 18th, then very strong winds, heavy rains and snowstorms.

January, 1932—Quite mild and calm for the first two-thirds of the month.

Tomatoes As a Diet

Will Be Chief Food For Members Of Wilkins Expedition

When Sir Hubert Wilkins sets forth in the Arctic submarine "Nautilus" in his expedition to the North Pole, the man in charge of meals for the entire personnel will be Harry Rothschild. When asked what will be the most important item in the under-the-ice menu, Mr. Rothschild is quoted in a news despatch from Yonkers, N.Y., as responding: "Tomatoes." Mr. Rothschild is insistent in his contention that tomatoes—canned, in cat-sup or in any other form—have an exceedingly invigorating effect upon people who are subjected to long confinement in stale air, as will be the case in this much-heralded under-the-seas expedition to the top of the world.

Mosquitoes never breed in swiftly flowing water.

Wicklow, Ireland, is trying to find means of housing its poor.

Gift For King George

Presented With Valuable Addition To Stamp Collection

King George has accepted a valuable addition to his wonderful collection of postage stamps, an album which contains a complete set of the new pictorial postage stamps for the territory of Southwest Africa, together with a series of the issued stamps in unused, marginal blocks of four, for the royal collection. The presentation was made recently on behalf of the Union Government by the high commissioner for South Africa, C. T. Water. These are the first stamps of definitive design to be circulated in the mandated territory, where up to now over-printed types of the Union itself have been employed. The subjects were obtained in open competition from South African artists, and from photographs, sketches and paintings selected by Colonel J. A. Venning, director of posts and telegraphs at Windhoek, while the actual engraving and printing has been carried out by Bradbury, Wilkinson and Company, Limited, at New Malden, Surrey, England.

Recipes For This Week

(By Betty Barclay)

CARROT PUDDING

This is a dessert well liked by those who visit Portugal. It is equally nice served with a pudding sauce or with cream.

1/2 cup butter.
1/2 cup brown sugar.
1 egg.
1 cup raw carrots, grated.
2 teaspoons lemon peel, grated.
1 1/2 cups flour.
1/2 teaspoon soda.
1 teaspoon baking powder.
1 teaspoon cinnamon.
1/2 teaspoon ginger.

Cream the butter. Add the sugar and slightly beaten egg. Stir in the carrots and grated lemon peel. Mix and sift the dry ingredients. Add to first mixture. Bake in a buttered pudding pan for one hour. Serve hot.

BEEF LOAF

1 1/2 pounds round of beef.
1 quart cold water.
1 tablespoon vinegar.
1 teaspoon sugar.
1 teaspoon sage and thyme, mixed.
1 tablespoon Worcestershire sauce.
Salt and pepper.

Simmer the beef in the water with the salt until meat is tender. Cool. Remove bones and fat, and chop very fine. Boil the liquid until reduced to one cup. Add vinegar, sugar, sage, sauce, thyme, salt and pepper. Mix with the meat. Press into a buttered mold and leave to become thoroughly cold. Serve with tomatoes and lettuce with mayonnaise.

Icebergs contain no salt, because they are formed of glacier ice which was originally snow.

More than 21,000,000 acres in Argentina were planted to wheat last season.

Halibut Treaty In Force

New Pact Between Canada and States Has Been Ratified

Ratifications of the new halibut treaty between Canada and the United States have been exchanged and the treaty is now in force. The exchange was effected through the United States legation at Ottawa, and Premier R. B. Bennett, as secretary of state for external affairs, delivered the Canadian ratification signed by the King following approval by parliament last session, to Hon. Manford McNider, United States Senate.

The new treaty is a revision of the 1923 halibut treaty which has been in force since that date and concerns halibut fishing operations on the Pacific Coast. The principal change in the new treaty is that it gives increased powers to the international fisheries commission for controlling halibut fishing in the north Pacific.

Honors Late Colonel Barker

Toronto Names New Flying Field After Famous Ace

Lt. Col. G. W. Barker, V.C., D.S.O., M.C., one of the Allies' greatest fighting airmen, who was killed in a crash last year at Ottawa, is to have his name perpetuated through the action of the National Air Transport of Toronto, which is going to name its new flying ground Barker Field.

The field is the old Century Airways Field on Dufferin Street (east side), which has been taken over by Capt. E. H. Hand and his associates. The announcement is made by J. D. A. MacDonald, secretary-treasurer of National Air Transport, that Mrs. G. W. Barker, widow of Col. Barker, has given permission that the great airman's name be used.

Canadian Bond Sales

Canadian bond sales for the year to date amount to \$211,193,386, as compared with \$191,969,321 for the corresponding period of last year, and \$140,814,686 for that of the year before. Purchases by Canadian financial houses made up a total of \$147,306,386, while American firms bought to the extent of \$58,787,000 and British, \$4,100,000.

English golfers are adopting the American no-coat idea.

FASHION

No. 951—All-Day Wear. This style is designed in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust measure. Size 36 requires 3 1/2 yards of 39-inch material.

No. 561—Smartly Styled. This style is designed in sizes 16, 18, 20 years, 36, 38, 40, 42 and 44 inches bust measure. Size 36 requires 3 3/4 yards of 39-inch material with 1/4 yard of 35-inch contrasting.

No. 191—Versatile As Its Wearer. This style is designed in sizes 8, 10, 12 and 14 years. Size 8 requires 1 1/2 yards of 39-inch material with 1/2 yard of 32-inch contrasting for ruffles.

No. 102—Cute, Isn't It? This style is designed in sizes 2, 4 and 6 years. Size 4 requires 1 1/2 yards of 27-inch material for dress with 1 yard of 27-inch material for bloomers and 1/2 yard of binding.

No. 284—Slimming Lines. This style is designed in sizes 36, 38, 40, 42, 44, 46 and 48 inches bust measure. Size 36 requires 2 3/4 yards of 39-inch material with 1/4 yard of 35-

inch contrasting and 3 yards of edging.

Our large Fashion Magazine shows the latest Paris styles for spring and summer for adults and children. Also instructive lessons in sewing. Price of book 15 cents.

A Real Business Builder

Those little helps to business—the Classified Advertisements—are neglected by many people. You may have something to sell, so why not tell the townspeople about it, otherwise you are very likely to retain possession of the article indefinitely, and perhaps it is just the article that some one else has been looking for, or perhaps the suggestion will cause that someone to immediately make up his mind that its something that he needs and must have.

There is hardly a household in Gleichen but what has an article, or maybe a half-dozen articles, that could be disposed of to advantage, and yet these articles are retained, in many cases unused and in the way, when a small classified advertisement might possibly bring to the door a buyer.

The Classified Ad. is a business getter and builder and should be used by everyone. They are inexpensive 15 words or under 50 cents first insertion and 25 cents each subsequent insertion. 3 weeks \$1.00. Over 15 words one cent per word for each insertion. Check over the articles you wish to dispose of, then either phone or call at this office and let the people of Gleichen know what you have for sale.

YOU WILL BE SURPRISED AT THE RESULTS

The Gleichen Call.

How to Use the Mc

In this section where there are as many Mc's as the proper use of the suffix is perhaps as important as it is up in Grey. Dealing with this delicate subject our contemporary The Mount Forest Contributor has this to say—"The public has now learned to spell Mr. MacDonald's name, but still he became leader of the Opposition in 1922, both 'Who's Who' and 'Hansard' spell him without the internal capital. MacDonald is really one of the names which should always be so spelled. The Gaelic rule is that where the

perfix is followed by a person's name as in this case, (Donald), the capital D should be retained; where it is followed by any other than a person's name (as in McIntyre—"son of the carpenter") the capital D should not be used. But it is a rule with which individual taste and fancy have played a good deal of havoc. The observation is correct. Every newspaper man is painfully aware of it. Sometimes the classman is so particular that he is ready to wreak vengeance on the printer that spells his name in a way not suited to his tradition of capricious."

GLEICHEN HOCKEY CLUB FINANCIAL STATEMENT

(Continued from page 1)
actual expense for mileage, meals and rooms was \$77.10 less guarantee \$80 and town per centage of gates \$77.10 a total of \$510.00 making a cost per mile of .3078. The club carried 10 men including manager making a cost per person of three and two-thirds cents per mile. This has been mostly due to the support given in the way of cars and willingness of the players at home and from the outside towns giving their time in strictly amateur co-operation. We must acknowledge the form for their co-operation during the play-offs in regard to their share of the gates. And last but not least the faithful fans who gave their loyal support despite the existing conditions.

W. MCKAY, Sec.-Treas.
J. W. MOSS, Mgr.

GETTING READY FOR CENSUS START ON JUNE FIRST

Agriculture is the leading industry of Canada and the farmer is the economic backbone of the nation. The total annual value of agriculture production averages double that of all our primary industries put together, and is from four to five times as great as that of either forestry or mining, which comes next in order of importance. The farmer furnishes the raw materials for many of our leading manufacturing industries, such as flour milling, feed and grain milling, bread and bakery products, slaughtering and meat-packing, butchery and cheese making, boot and shoe making, fruit and vegetable canning, etc. The farmer is a large consumer of the finished products of nearly all our other manufacturing industries, more especially of such industries as agricultural implements, automobiles, binders, tractors, sawmills, fertilizers, etc. The farmer supplies a very large part of the freight carried by our great railways and steamship lines, so that a crop failure is immediately reflected in falling railway and steamship earnings and a bumper crop in increasing railway and steamship revenues. Indeed, when the farmer experiences hard times, Canada as a whole necessarily suffers.

The Canadian farmer cannot be said to be in a satisfactory position in this spring of 1931. The world-wide slump in wholesale prices has in the past eighteen months hit the farmer harder than any other class in the community, and the whole nation has suffered accordingly. Thus the whole nation has an interest—an immediate and vital interest—in the rehabilitation and recovery of agriculture. While there is a widespread demand for the adoption of "national policy for agriculture," there are differences of opinion as to the precise facts of the situation that exists at the present time among the farmers of the Dominion.

A general survey of the Canadian agricultural situation in all its varied aspects is required as a basis for agricultural policy, and the detailed material needed for this survey is now to be collected from each of the more than 700,000 farmers of Canada at the decennial census of 1931. When this material has been collected, it will be tabulated and analyzed by the national Bureau of Statistics. The report which will then be published will contain a mass of information for Parliamentarians, publicists, farmers' organizations and all others who are interested in the problems of the farmers of the Dominion.

The opening census of the farmers of Canada is being taken for the benefit of the farmer. While the average farmer will not make individual use of the statistics, they will be used by the leaders of the farming community, by the professors and teachers in the agricultural colleges by the local agricultural representatives of provincial Governments, by the Dominion and Provincial Departments of Agriculture, by members of Parliament and of the Legislature as well as by journalists writing in the general press and the agricultural newspapers. Further, all the estimates of acres sown of crop yields of numbers of live stock, etc., that will be made periodically for some years to come will be made in the light of the statistics now to be collected. It is therefore of the utmost importance that the figures contributed by each farmer to the grand total shall be complete and accurate, so that we can have complete the best possible inventory of the greatest of our national industries and realize just what agriculture means to Canada.

Among the difficulties of enumerators is that of definition. What is a farm? According to the Canadian census, a farm is all the land directly farmed by one person either

by his own labour or with the assistance of members of his household or hired employees. But a "farm" must be of one acre or more and must have produced agricultural products to the value of \$50 or over in 1926.

The "farm operator" is another subject of interest. The census enumerators will want to know how long the farm operator, if an immigrant, has lived in Canada, how long the farm operator has farmed and how long he has operated his present farm.

The farm population of Canada will now be ascertained for the first time as distinguished from the total rural population. The census asks for the total number of persons living on the farm on the date of the census, as well as for the number of persons moving from the farm to urban areas to the farm from urban areas to the farm within the previous twelve months. This is intended to show the extent of the drift from the country to the town as well as the return movement.

Another new feature, introduced at the request of many agricultural associations and farmers' organizations is the question on farm mortgages asking for the amount of the mortgage asked for the amount of the mortgage at the date of the census and the amount of interest paid on mortgages in 1930. The replica to this question will answer for the first

UNITED GRAIN GROWERS LIMITED

time the question of the amount of farm mortgage indebtedness in Canada. In no circumstances will any information supplied by individuals be used as a basis of taxation. As the general schedule states, "The information on this report will not be used as a basis for taxation, nor considered by any assessor or other Government Department." Both the local

census commissioners and enumerators and the officials and clerks of the Dominion Bureau of Statistics at Ottawa are bound by an oath of secrecy. There is therefore no reason to doubt why every farmer should not co-operate by supplying the census enumerators with complete and accurate information on the subjects covered in the agricultural census.

To the Holders of WAR LOAN AND VICTORY BONDS

A Statement by the Minister of Finance

♦♦

IN The dark days of the War, Canadians loaned to the Government of the Dominion many hundred millions of dollars to enable the operations of the Allies to be carried to a successful conclusion.

When Canadians loaned their money to the Government, they received bonds which were promises to repay them the sum loaned with interest at the rate of 5% or 5½% per annum. On the 1st of October next, \$5,500,000 of these bonds become due; on the 1st of November, 1932, the maturity will be \$7,500,000; on the 1st of November, 1933, \$4,446,000; and, in 1934, \$1,001,000,000 must be provided for.

It would not be prudent, either in the interest of the security holders or the country itself, to wait until these loans become due before providing for their payment or conversion. Action must be taken well in advance of the due dates to protect the credit of the country. The Government believes this an opportune time to afford Canadians the opportunity to exchange the bonds, which they own maturing in the next few years, for new bonds of the Dominion of Canada carrying interest at the rate of 4½% per annum, which is a very attractive return. Prior to the maturity date of the present bonds, those who accept the offer will, of course, continue to be paid interest at the rate as provided by the bonds they exchange.

Canadians who have always shown confidence in their country are earnestly invited to exchange the bonds they now own for bonds of the new issue. By so doing they will render less difficult the task of providing for the future finances of the country, will enhance its credit and will greatly assist the Government in the present period of worldwide readjustments.

No money will be asked for and no new bonds will be sold at this time. It is proposed to limit the present conversion to \$250,000,000, but the Government has the right at its discretion to increase the amount if Canadians indicate a general desire to continue their investments in the new issue of Dominion bonds. The subscription books will close on the 23rd of May.

I earnestly seek the active support of my fellow Canadians in making this conversion, which is one of the largest financial operations our country has undertaken in recent years, creditable alike to Canada and its citizens.

R. B. Bennett

Minister of Finance.

Ramsay MacDonald Makes Statement Of Britain's Airship Policy

London.—Making his long-awaited statement on the future airship policy of Great Britain, Prime Minister Ramsay MacDonald indicated in the House of Commons that Britain's airship activities would be confined largely to scientific research. The £100,000 will be retained without alterations as a ship for experimental purposes, and the base at Cardington will be kept up on a research basis.

Mooring masts established at St. Hubert airport, near Montreal; at Ismaïlia, Egypt, and Karachi, India, will be retained subject to the assent, so far as the St. Hubert mast was concerned, of the Canadian government. He was sorry, the prime minister added, that the Canadian government had not replied as yet to inquiries as to its views on the St. Hubert mast.

"The idea was that with the co-operation of the Canadian government on the same scale as it gave us in the construction of the mast, the mast would be kept up while a new scheme is in operation."

Several speakers urged the Canadian government should be asked to increase the production of helium. F. Montagu, under-secretary of state for the air ministry, replied that in view of the limited program of the R-100 there was no necessity to consider the substitution of helium for hydrogen. The cost should also be considered. There would be a capital charge of \$500,000 for a plant on this side and an annual expenditure of \$100,000. Besides, he said, the greater lift of hydrogen was an important factor. Mr. Montagu's explanation closed the debate.

Interview By Television

Mrs. Philip Snowden Gives Interview Through New Medium

London, England.—While Rt. Hon. Philip Snowden, Chancellor of the Exchequer, was confined to bed for a few days under doctor's orders, the Daily Herald quoted Mrs. Snowden in what it described as "the first interview by television in history."

Both the interviewer and Mrs. Snowden were visible as well as audible to each other, one in the Herald's office and the other at 11 Downing Street. Asked about the chancellor's health, Mrs. Snowden told the reporter: "He has had rather a setback this week, I'm afraid. But I do not think it is serious. However, it has temporarily deprived him of the use of his legs to some extent."

Mr. Snowden virtually rose from a sick bed a short time ago to place the budget before the House of Commons. His physicians today told him to return to bed.

Cannot Collect Income Tax On Indemnities

Supreme Court of Canada Hands Down Important Ruling

Ottawa.—Insurance indemnities are not liable to Dominion income tax. The Supreme Court of Canada held in allowing the appeal in the case of the British Columbia Fire and Cedar Lumber Company against the King.

The company insured itself against damage to its plant and property from fire, also against loss from shut-downs of the plant resulting from fire. A disastrous fire occurred and insurance companies paid the company \$95,000. The National Revenue Department claimed the money was income and therefore taxable. That view was supported by the British Columbia Court of Appeal. The Supreme Court of Canada, however, decided to the contrary.

Made In West Campaign

Develop Markets For Goods Manufactured In Western Canada

Winnipeg, Man.—Western Canadian manufacturers gathered in conference here and decided to commence a campaign to sell "Made-in-the-West" goods to the prairie folk. A plan was formulated to develop markets for articles manufactured in the Canadian West.

A distinctive identification mark or label placed on all goods was favored by the conferees. The mark would show that the articles were produced by prairie labor. Manufacturers and retailers will co-operate closely in furthering the "Made-in-the-West" campaign.

Many Given Employment

Ottawa, Ont.—Latest figures in connection with the Dominion Government unemployment relief scheme show that 272,690 persons were given employment in Canada up to April 30 under the joint federal-provincial-municipal program of public works.

W. N. U. 1890

Detect Nationalistic Spirit

British Trade Mission Finds Desire In Canada To Foster Domestic Trade

London, England.—Members of the Trade Mission which visited Canada and the United States in the interests of the Scottish woolen industry told newspapermen that they had been struck by the "intensely nationalistic feeling" in Canada.

In Canada there was a desire to foster Canadian secondary industries at all costs, coupled with a desire to buy at home, the manufacturers said. This feeling did not exist in the United States, they said. It was essential that Scottish manufacturers should have better publicity and a better selling organization in both countries the members of the mission stated.

IS OPPOSED TO ANY CHANGE IN BANKING SYSTEM

Ottawa, Ont.—The banking system of Canada is adequate to the needs of this country and no reason exists for a change. This was the opinion expressed in the House of Commons by Rt. Hon. R. B. Bennett, prime minister and acting minister of finance.

Mr. Bennett asserted that the Canadian system embraced those great basic requirements which are essential to its success. It provided the people with a safe depository for the money which they desired to save, and it furnished to those people requiring money adequate facilities for borrowing.

Mr. Bennett emphasized that complicated discussion which sometimes took place in respect to banks and their place in the community, must always resolve itself into a simple, single inquiry. "Has the bank, through its management, had due regard in lending money to the fact that it may be called upon to repay that money to the source from which it was borrowed?"

"It may well be," Mr. Bennett declared, "that the time will come in this country when it is deemed desirable to expand our system as it now exists. I am not saying it will not. I am one of those who believe that you cannot today with respect to financial operations, say with certainty what it may be desirable to do tomorrow—using the word tomorrow, not in its literal sense but in relation to time as we employ the term in financial operations."

Discussion arose on a motion of G. G. Coote, U.F.A. member for Macleod, Alta., asking the House to declare that "there should be established in Canada a nationally-owned central bank." At some length Mr. Coote advocated the establishment of such a bank, declaring that it could take over many of the duties now discharged by the department of finance, administration of the Finance Act, probably the issuance of Dominion notes and supervision of the Post Office Savings Bank. He expressed the view that intelligence and effective control of credit in Canada could best be obtained through some such central institution.

TO SEEK BURIED TREASURE

Frederick L. Blair, of Boston, who heads an expedition this summer to seek buried treasure upon Oak Island, off Nova Scotia. Mr. Blair has spent 30 years already in an effort to unearth the treasure from "Money Pit."—Copyright by Acme Newspictures.

Estimated Wheat Acreage

Government Figures Based On Farmers' Plans May 1

Ottawa, Ont.—The estimated acreage of spring wheat in all Canada for this season is 22,152,300, as compared with 24,082,900 last year. This estimate was announced by the Dominion Bureau of Statistics in a crop report issued May 12. This means that 1,930,000 acres less will be under wheat during 1931 than was the case in 1930.

In Alberta the acreage is 89 per cent. of last year; in Saskatchewan, 92 per cent.; in Manitoba, 98 per cent.; in Ontario, 99 per cent.; Quebec, 100 per cent.; New Brunswick, 95 per cent.; in Nova Scotia, 98 per cent.; British Columbia, 102 per cent.; Prince Edward Island, 101 per cent. The acreage for all Canada for spring wheat is 92 per cent. as compared with 100 last year, a decrease of eight per cent.

The report explains that the figures are to be regarded only as an indication of the seeding plans of farmers on May 1. The actual acreage sown may be changed by later consideration, particularly by soil and weather conditions and by price movement.

Education In Penitentiaries

Ottawa, Ont.—Greater opportunity for educational expansion should be given inmates of Canada's penitentiaries, believes Miss Agnes MacPhail, lone woman member of the House of Commons, who addressed an Ottawa service club. The increase in penitentiary inmates was attributed by Miss MacPhail to the prevalent depression and unfavorable home conditions.

Has Letter For Premier

Tokyo, Japan.—Seiji Yoshihara, Japanese airman, who is attempting a States via Canada, is carrying with him on his solo effort across the north Pacific a sealed letter from Hon. Herbert Marler, Canadian minister in Tokyo, to the prime minister of Canada, Rt. Hon. R. B. Bennett.

NOVEL DISPLAY ON WESTERN TOUR

In this specially outfitted Canadian National Railways express car now touring Western Canada, the Canadian General Steel Wares are giving actual demonstrations of coal, wood, electric, coal oil and gasoline heaters. While the car will, whenever possible, travel on passenger runs, bunks have been installed for the use of attendants when the car is being hauled by freight.

Senator Urges Joint Holiday

Would Have Remembrance Day and Thanksgiving Celebrated Together

Ottawa, Ont.—Joint celebration of Remembrance Day and Thanksgiving will be the aim of a motion which will be introduced in the Senate by Hon. John Stanfield. When the Senate was considering a bill which passed the House of Commons, fixing Remembrance Day on November 11, Senator Stanfield gave notice of his suggested amendment. The bill was referred to a committee, where the proposed change will be considered.

The bill, as it passed the lower House, changed the name of Armistice Day to Remembrance Day and fixed it permanently on November 11. At the present time, it is celebrated on the Monday of the week in which November 11 falls.

Makes Two New Records

Empress of Canada Clips Hours Off Trans-Pacific Trip

Victoria, B.C.—Giving her faster sister ship, the Empress of Japan, something to aim at next month, the Canadian Pacific liner Empress of Canada arrived here from the Orient after making two new records for the Trans-Pacific voyage. She sailed at Honolulu on the way across from Yokohama and created a new time for the lap and another record for the lap from Honolulu to Victoria. The last stretch was done in four days, twelve hours and twenty-one minutes, which is at least thirty hours faster than this trip has ever been done before. The run from Yokohama to Honolulu was done in six days, eleven hours and thirty minutes.

APPROVAL IS GIVEN TO EMPIRE WHEAT QUOTAS

London, England.—The Labor Government has approved the general principle of a quota for Empire wheat. This was the statement of Lord Parmoor, president of the council in the Labor cabinet, in the House of Lords. The quota would assure the wheat-growing Dominions a certain proportion of the British market.

Lord Parmoor believes the project is quite possible.

"The difficulty is one of detail which cannot be disposed of until after the forthcoming conference at Ottawa. The Dominions do not think it is impossible and neither does the government. Whether the Dominions can formulate a scheme which will be satisfactory, only time will tell," he declared.

Lord Parmoor did not believe a quota on wheat grown in Britain could be of any benefit to the farming industry, since it could not be used without adding to the burdens of the taxpayers.

The decision of the government was not unanimously endorsed by the Lords. The Labor peer, Lord Arnold, made a slashing attack on the proposal. "It is a crude and terribly unsound proposal," he stated. A quota of even 55 per cent. of the Dominions' wheat would not only be practically no increase in the recent British import of Dominion wheat, but would only represent one-fifth of the joint Canadian-Australian surplus, in the current year of 512,000,000 bushels."

It was obvious he said, the economic committee of the Imperial Conference had grave misgivings as to the effect of a quota on prices. Far from furthering Imperial unity it would become a discordant Imperial factor and also invite retaliation by other countries like the Argentine.

Lord Arnold made passing reference to Rt. Hon. R. B. Bennett's offer to the Imperial Conference and the speech of Rt. Hon. J. H. Thomas, Dominion secretary, the language of which, he said, "would shock this House."

Rt. Rev. Bertram Pollock, Bishop of Norwich, challenging Lord Arnold's assertions from beginning to end, said if any kind of Empire preference was found to be good, then some further step could be taken. "We are not necessarily committed to a long series of further steps," he declared.

Lord Parmoor has failed to follow the reasoning that a quota meant a duty on foodstuffs or raw materials. That was never part of the government's policy and the various Dominions had made it clear they did not desire it. It was not a question of price, but of quantities, and he was unable to see why a quota should prove impracticable.

On the other hand, it was useless for home farmers to have a quota without a guarantee price, which would mean raising the price of wheat from 75 cents a bushel to \$1.50 per bushel. The real treatment for the farming industry in the Old Country was an adaptation to new economic conditions, he declared.

Every Effort Being Made To Promote The Sale Of Canadian Wheat

Competition For Card Designs Is Announced

Subject To Be Summer Outdoor Scene In Canada

Montreal.—Christmas card designs will be received by the Imperial Order Daughters of the Empire in the annual competition which closes Nov. 1, 1931, it is announced. The subject is to be a Canadian outdoor summer scene. Three prizes are offered, of \$100, \$50 and \$25.

The contest is open to all British subjects residing in Canada, professional or amateur artists. A person who has previously won a prize may not be awarded the same prize. A competitor may submit more than one design but each entry should be sent separately.

Fire Causes Heavy Loss

Destroys Main Barn on Hay's Dairy Farm Near Calgary

Calgary, Alta.—Loss of \$40,000 partially covered by insurance was suffered by Hay's dairy farm, near here, in a fire that destroyed the main barn, hundreds of bushels of feed and several tons of hay.

One hundred head of prize cattle had been taken from the barn for exercise just 15 minutes before the fire started. Seven head of cattle in the barn were led to safety by employees.

Thousands Given Employment

Ottawa.—Latest figures in connection with the Dominion government unemployment relief scheme show that 272,690 persons were given employment in Canada up to April 30 under the joint federal-provincial-municipal program of public works.

SUNDAY SCHOOL LESSON

MAY 24

JESUS PREPARING FOR THE END

Golden Text: "This do in remembrance of Me."—Luke 22:19.

Lesson: Luke 21:1 to 22:23.

Devotional Reading: Isaiah 53:1-6.

Explanations and Comments

The Preparation For Keeping the Passover, 22:7-13.—While the city of Jerusalem was making ready to celebrate the Passover Supper, the day of unleavened bread, and the chief priests and elders were planning how they might put Jesus to death, Jesus bade two of His disciples, Peter and John, make preparations for their keeping of the feast. "Where?" they asked Him, and Jesus directed them to enter Jerusalem, and when they met a man bearing a pitcher of water to follow him. Water was carried by women in jars upon their heads, and a man doing this work would be a solitary and unusual figure. To the owner of the house to which the man would lead them, Jesus bade them say, that the Master asked where was the guest chamber in which He should eat the Passover with His disciples. The owner would show them a large upper room where they were to make ready for the Passover. The disciples followed His directions.

The Prelude To the Lord's Supper, 22:14-18.—When the hour was come (when evening was come, Matthew), Jesus sat down (reclined on a couch) with His disciples to partake of the Paschal Supper. "With desire have I desired [intensely have I longed] to eat this Passover with you before I suffer." Why? For His own sake. There was comfort for His own heart that He should be able to manifest His love. With tender, solemn thought He had looked forward to it, and He desired the support of their fellowship for what lay before Him. For their sake also. The final act of suffering would be a great trial to the disciples. They were to know something of the sorrow of desolation, and Christ was eager to prepare them for the dark future. If they were assured of His deathless love they would find comfort when the shock of His death came. They could look back on this feast and on these words, and gather strength to suffer and to wait. And so it is for us also who are His disciples. Our feast of love not only represents the desire of the Lord to give Himself, but represents the joy of the gift to us.

The Institution Of the Lord's Supper, 22:19, 20.—And He took bread, and when He had given thanks, He broke it. It was unleavened bread, especially prepared for the Paschal meal. Because He broke off the pieces of bread (which was in the form of hard, flat, round cakes and was always broken, never cut), the ordinance is called the "Breaking of Bread." From the Greek word for thanks, "Eucharistia," comes our word "Eucharist." And Jesus said, "This is my body which is given for you." And as Jesus took the cup, He said, "This cup is the new covenant in my blood, even that which is poured out for you."

The Startling Announcement, 22:21-23.—It was a startling statement that Jesus made when He said, "But behold, the hand of him that betrayeth Me is with Me on the table." "It was the dropping of a Lydian shell into their midst, destroying the whole atmosphere of peace," Dean Brown. "For the Son of Man indeed goeth, as it hath been determined," continued Jesus: "But woe unto that man through whom He is betrayed!"

Ottawa.—Every possible effort is being made by the government to find markets for Canadian wheat and to disabuse any antagonistic attitude millers of Europe might have against grain from this country, Hon. H. H. Stevens, minister of trade and commerce, declared in the House of Commons.

When estimates for his department were before the House, Mr. Stevens was pressed by opposition members to recite the steps taken by the government to find markets for wheat. In response to that invitation, Mr. Stevens said the government, upon assuming office last August, lost no time in instructing Canada's trade commissioners to bend every effort in broadening markets for wheat and flour.

In 1929 and 1930, Mr. Stevens proceeded, an attitude arose in Europe that was against wheat from North America. Rightly or wrongly, Canada was charged with advancing prices. Europe then turned to other markets. Argentina received additional business, he continued, and, in addition, many flour millers in Germany, France, Switzerland and some other countries changed their screens, so as to mill Argentine wheat, not Canada's.

This year the millers were found to be reluctant to change back their machinery and many governments had applied "very drastic protection for their own agriculturists and wheat growers." Other nations adopted a fixed quota against foreign wheat and strenuous propaganda was carried on to use rye or black bread.

"Recognizing these conditions and to disabuse the minds of European millers," continued Mr. Stevens, "we have tried to build up markets in other parts of the world. But that will take time, it will take years. We have made some progress. We also found new markets in Columbia, small, I admit."

Later on, Mr. Stevens said, the grain trade in Western Canada had changed its policy. That had been followed by a better feeling toward Canadian wheat in Great Britain and he hoped that the situation would soon be entirely rectified.

Place Idle On Land

Plan Proposed To Establish Jobless On Manitoba Farms

Winnipeg, Man.—A scheme to establish jobless on farms has been placed before the Manitoba Government and the city fathers of Winnipeg. J. G. Alexander and J. P. Siemens, of Winnipeg, are authors of the scheme. They urge that huge sums spent on unemployment relief be used to establish families on the land.

Land suitable for farming operations is available at \$1.00 to \$1.50 per acre, the men claim. Their plan would give permanent instead of temporary relief and enable the jobless to produce their own food and in time become taxpayers, the two men state. It is stated that more than 1,100 families have announced their desire to become farmers if the money spent on relief can be used to aid them.

The proposed plan would permit families to occupy farms owned by the government until they can return the amount of money advanced, then they will receive title to the land.

Conference On India

Second Round Table Conference To Be Held In November

Simla, India.—The first week of November was tentatively set for the second round table conference at London on an Indian constitutional status. The federal structures committee, which will undertake preliminary work, will meet in London in September.

The conference should be concluded by Christmas, exploring in less than two months problems of self-government and necessary safeguards for the great continental peninsula with its 350,000,000 souls.

There will be 100 or more delegates, including Mahatma Gandhi, whose vast constituency—the Indian Nationalists—were not represented in the round table conference recently concluded at London.

Production Not Excessive

Livestock Report Shows Beef Growing Is on Low Basis

Ottawa.—Beef is practically the only human food at the present time that is not in excess production, states the eleventh annual Livestock Market and Meat Trade Review shortly to be published by the Dominion livestock branch.

The Review observes Canada's meat production at present is on a comparatively low basis, but that this does not necessarily guarantee a maintenance of good prices during the present year.

SMALL TOWN PROGRESS

While the population drift to large cities is continuing, their productive capacity is not increasing in proportion to that of the inhabitants of small towns. Industrial leadership of the country in many cases is being transferred to the rural communities.

Such, in brief, is the conclusion arrived at by a leading economist after a nation-wide survey of industrial trends. The underlying reasons for the growing industrial importance of the small towns are stated thus:

"Distribution of electric energy

to even the smallest hamlet has furnished rural communities with abundant facilities for operating industrial plants. The marked improvement in freight transportation as a result of better highways, and acceleration of railroad traffic have been other factors in the small town's forward march in industrial importance."

It is also pointed out that there are many advantages to wage-earners in this decentralization of industrial operations. Lower rents, cheaper foods and escape from city congestion all offer inducements to small town living.

Here and There

(691)

More than two million fingerling salmon and 40,000 trout yearlings were placed in Nova Scotia lakes and streams during 1930 from the fish hatchery at Lake George.

About \$50,000,000 was spent in Canada during 1929 on hydro-electric power development and installations, and it is expected that fully \$300,000,000 will be spent for a similar purpose during the next three years.

Consumption of natural gas in Canada during 1929 for domestic purposes was calculated to be sufficient to displace 640,000 tons of coal. Natural gas is found in abundance in Alberta and some parts of Western Ontario, and the Maritime Provinces.

Province of New Brunswick's representation at Sportsmen's Shows in the United States this year will be larger than ever and new territory will be invaded. Its first exhibit will be at the New England Sportsmen's Show at Boston, February 7-14, and also at the Philadelphia Sportsmen's and Motor Boat Show, February 21-28.

Six thousand pounds of unfrozen white fish from Northern Saskatchewan recently went by Canadian Pacific from Prince Albert to Winnipeg and points beyond. It was carried 150 miles to Prince Albert by aeroplane in one hour and a quarter, a trip that would by ordinary means have taken from eight to eleven days.

When a 22-year-old woman recently fell from the wharf at Pier D, Vancouver, into the dangerous rip tide of Burrard Inlet, William Hill, assistant chief clerk of the British Columbia Coast Steamships of the Canadian Pacific, without hesitation dived in and after a 20-minute battle in the chill waters succeeded in getting her ashore. The woman will recover.

All Canada from hors d'oeuvres to dessert was represented at the first dinner served to the former Governor-General of Canada, Viscount Willingdon, on Canadian Pacific liner Montclair, which sailed for England recently. Starting with Saint John oysters, it included supreme of Nova Scotia sole, saddle of western lamb, roast Ontario chicken, and bomb maple leaf as a sweet.

Work has started on the building of the British Columbia link of the Trans-Canada Telephone Line. A direct system through the Crow's Nest Pass to Alberta will be provided to replace the present system of routing telephone calls to and from British Columbia across the United States via Seattle. The proposed system will cost \$1,250,000 and will involve some 655 miles of telephone lines, 125 miles of which have already been built.

Marriage at sea has happened before and will likely happen again, but the distinction of being baptized at sea is claimed to be unique and this occurred when two infant children were baptized in mid Atlantic by Dr. Oliver C. Rankin, Scottish minister aboard Canadian Pacific liner Montclair, recently. The mothers and children, arriving out to Canada from Greenland and the minister, a visiting pastor of Boston, at McGill U.

Town & District

Dave Yule—"Did you see that charming girl smile at me?"
E. L. Birdson—"Yes, the first time I saw you, I, too, had to smile."

Saturday dust, Sunday "nothing else but."

In case you have forgotten the dates for Gleichen Chautauqua this year are from July 24th to 30th. So plan your holidays accordingly.

The largest graduating class in the history of the University of Alberta graduated last Friday afternoon. The total number was 280.

Before visiting Africa to see a Sahara sand storm see an Alberta dust storm first, also see the inside of a residence shortly after a dust storm starts.

A carload of distillate for the Imperial Oil Company has arrived in Gleichen and will sell at 17c per gallon. R. S. McQueen, Agent. Ad.10

For good home made meals, light lunches, refreshments of all kinds ice cream, visit the Rose Tea Room. 2

The other day three truck loads of gas, in drums from Turner Valley went through Gleichen bound for Regina to be used by farmers in that region. The farmers around Regina find they can drive their trucks to Turner Valley get a load of gasoline and return home and be many dollars ahead.

Invitations are out for the marriage of Mr. (Happy) William Welland Pustson of Mr. and Mrs. F. E. Pobst of Gleichen, to Miss Ruth Price of La Verne, California. The marriage will take place on May 31st at La Verne.

Mrs. F. E. Pobst will return home to Gleichen to day from the hospital in Calgary, where she has been for several weeks recovering from a severe operation.

Queenstown is putting on a sports day on June 17th which will include a baseball tournament, girls basketball game, tug-of-war, and horse shoe pitching. The Gleichen juniors will play the Queenstown junior ball team in the morning.

Mrs. Lockyear, of Blaine Lake, Sask. arrived in town Friday to spend some time visiting her parents Mr. and Mrs. A. E. Jones. Mr. Lockyear has gone to the old country to visit his father who has been seriously ill for sometime.

The Cubs have formed a football club under the leadership of Mr. John Boyd.

The stores close this afternoon for the first holiday of the year. They will close every Wednesday afternoon from now until August 15th.

Ask Harry Carreck what it feels like to accidentally connect up with a 220 volt wire, also how to get away from it when you are up a ladder 20 feet.

HORSES AND PLANES MAYNARD'S SPEED

The old wheeze, "You can't keep a good man down," applies with special emphasis to Ken Maynard, Tiffany's new western star, whose first picture "Fighting Thru" comes to the Community Hall, Saturday, May 23rd, under William Nigh's direction with Jeanette Loff in the feminine lead.

To be specific, you can't keep a natural born flying man tied to the ground.

Ken has owned three planes, and has flown about 1,000 hours, within three years.

This week he bought his fourth plane, a standard Waco, and leveled off some of his ranch property in the San Fernando Valley, where he keeps his horses, to provide himself with a nice runway into the prevailing wind. He tested the field's possibilities by bringing his new ship over and landing several times, and when it seemed perfect he stuck up a hangar.

Buying the plane, building his private airport, testing it and putting up a hangar took him just two days.

Boy, page Colonel Lindbergh!

You can usually sell anything on the installment plan that you can't give away.

The habit of taking snuff is on the increase in Canada. In 1929 over 97,000 pounds were made, valued at \$1,200,000, an increase of over 337,000 pounds and more than \$50,000 in value as compared with 1919.

Fish as candles? Certainly, some of them, sometimes. Oulachons, small oily fish taken in British Columbia waters, are also known as "Candlefish," because the Indians used to dry them and use them as candles.

Forty-one anglers who fished the 4 1/2 miles of open water reserved for regulated public fishing on the famous Reservoirs of the New Brunswick during the 1930 season caught 315 salmon weighing 5,257 pounds.

The Earl and Countess of Bessborough, Canada's new Governor-General and wife, arrived at Halifax Easter Saturday on board S.S. Duchess of Bedford. They were accompanied by their son, Viscount Duncannon, and their daughter Lady Moyra Ponsonby.

A party of twelve headmistresses representing a number of the leading girls' schools of Great Britain arrived at Halifax recently aboard Duchess of Bedford and are scheduled to make a tour of the Dominion to Victoria and back, returning to England May 13.

Canadian Pacific Railway hockey team added to the laurels gained by winning the Railway-Telephone championship at Montreal, when they defeated the Winnipeg C.P.R. team and took the all-lines hockey championship of the railway.

Nova Scotia is to be represented by an industrial and tourist exhibit at the Bermuda Exhibition April 21-23 next. It is being arranged by the Nova Scotia Provincial Exhibition and the Department of Information of the Provincial Government.

The largest number of passengers ever to sail on a single ship from New York to Bermuda left on the Duchess of York Good Friday, when 748 passengers were on the list. This service was inaugurated this year and has been so successful that four extra sailings have been announced.

An art school on wheels through the most beautiful section of the West has been organized by a Montreal artist to travel by Canadian Pacific Railway from that city as far as Victoria during July. The school will make a specialty of Indians, Mounties, cowboys on bucking bronchos, and the glorious scenery of the Rockies as subjects for painting. (727)

Drudgery

is an Extravagance

FOR five hours today this woman patiently toiled over a washboard . . . bending, lifting, rubbing . . . doing the things a tireless little Electric Washer can do in two hours. Day after day, she dusts, sweeps, cleans . . . doing things a vacuum cleaner would do twice as fast with half the effort.

With Electricity ever at hand such drudgery is an extravagant waste of time and effort. Hours that now drag slowly by might be enjoyed in doing the things she'd rather do. The woman who wishes golden hours of freedom must first break the shackles of housework. Electricity is ready to help.

The Calgary Power Company representative in your territory can procure for you any item of electrical equipment. He will tell you about the attractive terms upon which you can purchase many electrical appliances—with a small cash payment and the balance on your monthly light bills.
